

PARAPHRASE

SONGS IN OTHER WORDS

OBJECTIVE

Solve the word puzzles, show off your knowledge of song titles, and maybe even win the respect of your fellow teammates with your amazing singing ability! Points are earned by correctly solving the Paraphrase and naming the Song Title. Extra points are earned by correctly guessing the Artist/Band who made it a hit in that decade and/or suddenly burst into song. If you need hints, you will lose points. The team with the most points at the end of the game wins!

COMPONENTS

- 213 Song Cards
- 5 Scoring Cards
- 2 Reference Cards
- 1 Page of Rules

CARD DESCRIPTIONS

Song Card

At the top of each Song Card is a paraphrased song title (to paraphrase something is to restate its meaning using other words). In the middle of the card, there are two hints in case you get stuck. But, using hints deducts points off your score.

- The 1st Hint contains three words that are synonyms of one word from the Song Title. In some cases, a slang term has been used to express the meaning.
- The 2nd Hint is always the name of the Artist or Band that made it a hit in that decade.
- At the bottom of the card is the Song Title.

Scoring Cards

Score cards are listed as 1, 2, 3, 4, and 5. When a Song Card is scored, it is placed under the matching Score Card on the table.

Reference Cards

The Reference Card lists how points are scored during a round and has quick information to remind players of the Gameplay.

GAME SETUP

- Divide into two teams and give your team a cool band name.
- Shuffle the Score cards, then one player from each team draws a card. The team with the highest number goes first.
- Spread out the five Scoring cards on the center of the table in numerical order.
- Each team takes a Reference Card.
- Select the Song Card decades your group would like to play and remove the other Song cards from play, or choose to play with all decades. Your group chooses the difficulty.
- Shuffle the chosen Song cards together) into one deck of cards and then place the deck face-down on the table.
- Decide how many total rounds will be played, with each round taking about 5 minutes to play. We suggest playing 3 rounds to start, but you choose to may play fewer or more.

Team One

HOW TO PLAY

The game is played over a series of rounds, where each team takes a turn. During each team's turn, one player on their team draws five (5) cards. Then the team's players earn points by solving as many Song Titles as they can within 90 seconds. Teams get extra points if they can name the Artist/Band and/or sing the song! However, if the team needs hints, they will lose points.

An Example Round

One (1) Round

- Team One's Turn – 90 seconds
- Team Two's Turn – 90 seconds
- End of the Round

Repeat rounds until you complete the number of rounds decided upon at the start of the game.

Example Team Turn

1. The guessing team chooses one person on their team to read the cards and then that person draws five (5) cards from the Song Card deck. (Teams can change the reader on other turns.)
2. The team's turn begins when the opposing team starts a timer and says "Start" (use a clock or a phone to keep time).
3. For each of the five cards drawn, the reader says the card's paraphrase and then the guessing team tries to guess the Song Title. The reader only gives hints as requested.
4. When a Song Title is correctly guessed, teams can then earn extra points by naming the Artist/Band and/or singing the song. Teams have 90 seconds to solve all five cards and the cards are scored face-down or discarded face-up.
 - i. Scoring – Once the Song Title has been correctly guessed and extra points are earned, the card is immediately scored (See "Scoring A Card" below).
 - ii. Skipping a card – If no hints are given, the card reader can skip to the next Song Card in their hand and try the skipped card again later on their turn.
 - iii. Once the 1st hint has been given, the card must either be scored or discarded, it cannot be skipped.
5. The guessing team's turn is over when the opposing team says "Stop" after 90 seconds or when all five (5) cards have been scored or discarded.
6. Repeat for the opposing team and the round completes.

There is no penalty for wrong answers. Sometimes it takes "talking it out" and trying different words to come up with the correct answer.

SCORING A CARD

To score a Song Card, count up the points earned for the card, then place the card into the Team's Scoring Area below the matching Score Card. Use the Reference Card to count up your points easily. If a card was not scored, place it face-up in a discard pile.

Important Scoring Rule: You must first correctly guess the Song Title to gain any extra points.

Points are awarded as follows:

+3 points - Correctly guess the Song Title without any hints.

Extra Points (after correctly guessing the Song Title)

+1 Point – Correctly guess the Artist or Band who made the song a hit in that decade.

+1 Point – Correctly sing the melody and lyrics to any part of the song. The opposing team reserves the right to decide whether the tune is close enough to count.

Lose Points

-1 Point – If the team needed the 1st Hint.

-1 Point – If the team needed the 2nd Hint.

Note: The 2nd hint is always the Artist or Band. If you needed the 2nd Hint, you cannot get an extra point for guessing the Artist or Band.

END OF GAME SCORING

At the end of the game, each team adds up the points from scored cards in their Team's Scoring Area.

WINNING THE GAME

The team with the most (cumulative) points at the end of the game wins!

TIEBREAKER RULES

If both teams have the same score (tie) at the end of the game, the game moves to a "head-to-head" challenge; a final song tiebreaker!

1. Each team selects one player to guess the Song Title with no help from teammates.
2. Choose one player from either team who draws and reads one card from the Song Card Deck.
3. The reading player reads only the Paraphrase on the Song Card. No hints are given for tiebreakers.
4. The first player to correctly guess the Song Title gets the win for their team!
5. Repeat from Step 1 until there is a winner.

ALTERNATE PLAY AND SCORING:

- Players can choose to score cards after each team's turn or each round. Keep track of your total (cumulative) points on paper or on your phone. You can discard cards after they are scored.
- Two Players - The other player reads the Song card to the guessing player and scores the card.
- Large Groups 12+ players – Divide into two teams, choose one person to be the announcer, judge and score keeper. After the Paraphrase has been read, teams have 5 seconds to guess the Song Title. After 5 seconds, the 1st hint is given. If the Song Title is not guessed, teams get another 5 seconds before the 2nd hint is given. When a team correctly guesses the Song Card, they have 5 seconds to gain extra points by correctly naming the Artist/Band and/or singing the song, or the opposing can steal the points.
- No Skipping – The opposing team is automatically awarded 1 point for each skipped card.
- For an extra challenge, the paraphrase on the Song card is to be read ONCE, and not repeated or skipped.
- The 90 second turn time can be increased or decreased depending on the skill of players.
- Remove older decades from Song cards for an easier game.
